

## VACANCY FOR POST-DOCTORAL FELLOW

NIPD Genetics is a leading innovative biotechnology company that designs, develops and provides advanced tests for the prediction, diagnosis and prevention of genetic diseases. NIPD Genetics developed a proprietary technology platform for detection of chromosomal abnormalities, structural rearrangements and point mutations located in any region of the human genome.

### THE POSITION

We seek to recruit a **POST-DOCTORAL FELLOW** to join our dynamic team of experts. Successful candidates will work in the Research & Development Department of the company and will have the opportunity to work with cutting edge technology in our modern facilities in Nicosia.

### PROFILE OF THE IDEAL CANDIDATE

The ideal candidate must uphold to the highest standards and be able to contribute to the company's mission to develop and provide the safest and most accurate genetic tests.

### RESPONSIBILITIES

The selected candidates will be:

- Responsible to perform research for all phases of product development for screening and diagnostic services, including assay development, technical and clinical validation
- Utilizing knowledge to optimize existing assay conditions
- Assisting in project planning based on project goals, potential risks and timelines as assigned by management
- Ensuring high quality, on-time delivery with the stated project goals
- Adhering to all departmental protocols and safety procedures
- Keeping up to date with project related literature
- Contributing to evaluation and interpretation of results
- Maintaining accurate and detailed records of results and data
- Communicating issues and progress to project leader and management

### REQUIREMENTS

- PhD degree in Biological Science or in a closely related field. Laboratory experience in the field of molecular biology or human genetics will be considered an advantage
- Strong experience in assay designs for DNA based applications
- Experience NGS sample preparation methodologies and high throughput sequencing
- Ability to be proactive, plan and prioritize tasks across multiple projects
- Innovative thinker and problem solver
- Enthusiastic attitude and good communication skills
