

VACANCY FOR SCIENTIFIC CONTENT WRITER
(Biologist / Geneticist)

NIPD Genetics Public Company Ltd is a privately held company and one of the leaders in the field of cell-free DNA and non-invasive genetic testing with international operations. NIPD Genetics consists of a world class dynamic team of experts with extensive experience in biotechnology, business, human genetics, molecular biology and bioinformatics offering advanced research and providing state of the art internationally accredited diagnostic services worldwide. Through Research & Development we are committed to developing improved solutions for the diagnosis and management of genetic diseases, while at the same time we provide state of the art internationally accredited diagnostic services worldwide.

THE POSITION

We seek to recruit a Scientific Content Writer, with a can-do, positive attitude to join our diverse team. They will be part of the Marketing team and will be producing various formats of scientific copy content for digital and print media.

Profile of the ideal candidate

The ideal candidate will have in-depth understanding of genetics and field-specific terminology. They will be willing to learn and adapt quickly to shifting priorities.

Responsibilities

- Draft and create scientific copy content to be used for brochures, social media, white papers, announcements, presentations and other necessary copy writing material as needed and directed by Marketing management
- Write, copyedit and proofread all marketing material prior to publishing
- Produce industry relevant weekly blog articles for the company's website
- Create engaging marketing presentations with PowerPoint
- Liaise with other departments, such as R&D, in order to source content and to assist with presentations
- Prioritize competing tasks and deliver timely under pressure
- Ensure copy content adheres to NIPD Genetics brand message, tone and style

Requirements

- Degree in Genetics, Biology or other Life Science related field
- Excellent written and verbal communication skills
- Ability to translate scientific data and terms into comprehensive, cohesive and concise marketing material
- Ability to address specific and general audiences, such as geneticists, doctors and patients
- Quick learner and willingness to learn
- Knowledge of Microsoft Word and PowerPoint
- Knowledge of other software such InDesign, Illustrator will be a plus
- Knowledge of reference/citation software
- Native fluency in English and Greek. Knowledge of any additional language will be considered an advantage
- Ability to work independently, as well as be part of a team
